TRUXX TYRES
EXTRA RANGE - EXTRA SERVICE

AURORA

Aurora Tyres is a division of Hankook Tyre, an internationally acclaimed tyre brand. Hankook is South Korea's largest radial tyre manufacturer for trucks, cars and buses.

The only real difference is in the brand; Aurora tyres are designed and manufactured with the same attention to skilfulness, design, materials and manufacturing that makes Hankook such a respected name.

Aurora produces a line of high performance commercial tyres; all with value, trustworthiness and performance that will surprise you.

UF 16

Steering axle tyre

Suitable for international transport

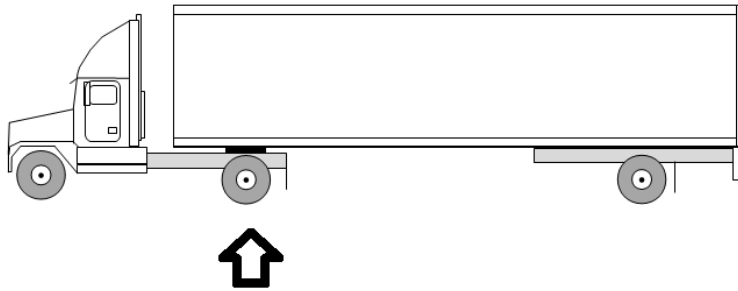

Available in sizes: 295/80R22,5 – 315/70R22,5 – 315/80R22,5

The main characteristics of the UF 16 profile are reliable grip and fuel efficiency. This modern tyre was developed for long distances. The high technological pattern provides even wear and a longer life of the tyre.

[Back to menu](#)

UZ 07

Driving axle tyre

Suitable for international transport

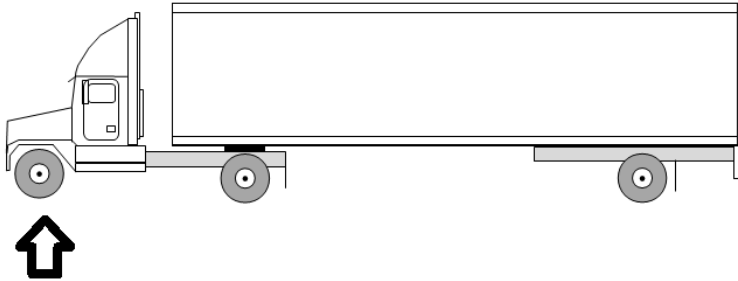

Available in sizes: 295/80R22,5 – 315/70R22,5 – 315/80R22,5

Drive axle tyre best suited for long distances in all weather conditions. The 5 straight grooves ensure optimal drainage while the block pattern provides optimal traction and stability. The improved compound guarantees high mileage and reduced rolling resistance.

[Back to menu](#)

UF 05

Steering axle tyre

Suitable for regional transport

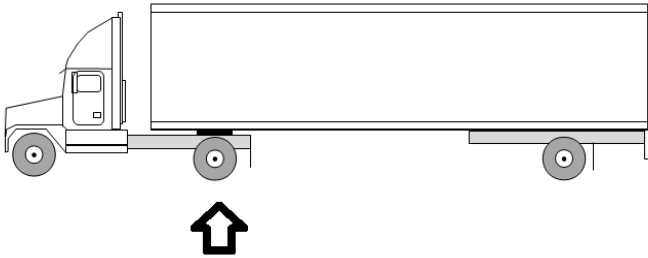

Available in sizes: 205/75R17,5 – 215/75R17,5 – 235/75R17,5 – 265/70R19,5 – 285/70R19,5

Multifunctional steer axle tyre which is suitable for long distances and regional traffic. It was specifically developed for light trucks and small busses. The 4 multi-faceted groove walls provide extra stability and strong traction, even in wet conditions.

UZ 01

Driving axle tyre

Suitable for regional transport

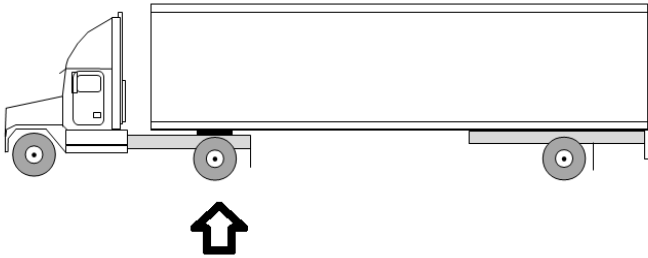

Available in sizes: 215/75R17,5 – 245/70R19,5 – 265/70R19,5

Drive axle tyre with a wide tread pattern designed to enhance mileage and durability. Very high traction in all weather conditions thanks to its aggressive pattern. Superior grip and braking performance in all seasons,

UZ 05

Driving axle tyre

Suitable for regional transport

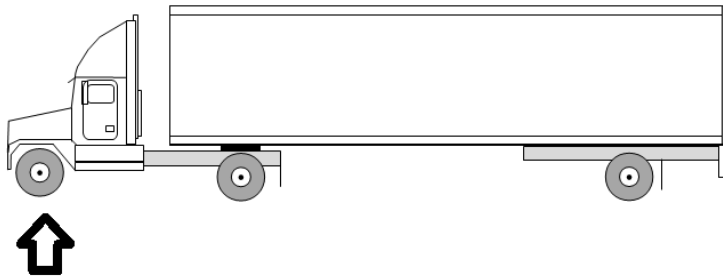

Available in sizes: 295/80R22,5 – 315/70R22,5 – 315/80R22,5

The UZ05 is best suited for regional transport, it offers durability and traction on all road types and in all weather conditions. This tyre can boast these qualities because of its dynamic tread pattern which is characterized by inclined transverse grooves who also enhance even wear.

UR 01

Steering axle tyre

Suitable for on/off road transport

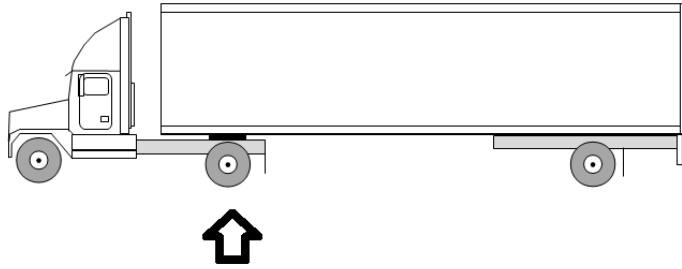

Available in sizes : 1200R20 – 12R22,5 – 205/75R17,5 – 315/80R22,5

The multifunctional tyre for heavy duties. The wide and deep zigzag tread pattern ensures excellent touch and manoeuvrability both on and off road. Thanks to its specific rubber compound, this tyre resists punctures and impacts like no other.

[Back to menu](#)

UR 02

Driving axle tyre

Suitable for on/off road transport

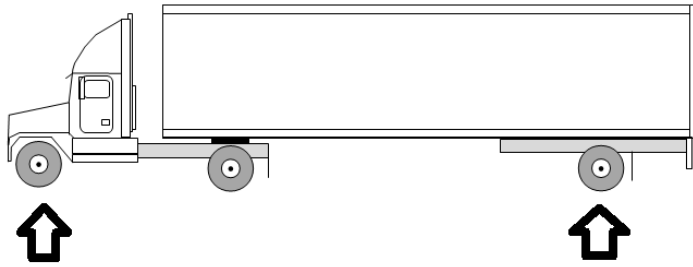

Available in sizes : 12R22,5 – 205/75R17,5 – 315/80R22,5

Drive axle tyre suitable for many types of vehicles that have to deal with difficult off road circumstances. The rugged tread pattern with high traction provides greater mobility and improved braking. The high tech tread pattern and rubber compound guarantee sustainability; reinforced sidewalls ensure a long life of the tyre.

[Back to menu](#)

UR 09

Steering axle tyre

Suitable for on/off road transport

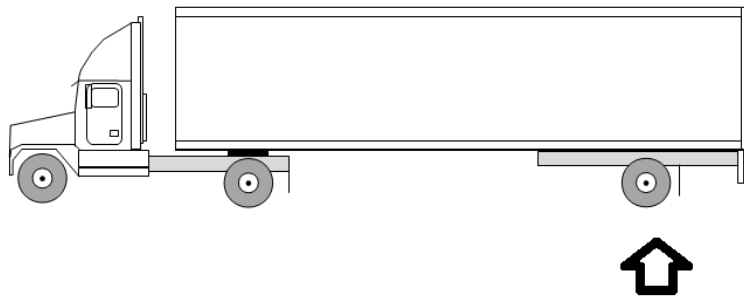

Available in size: 425/65R22,5

The UR09 tread pattern is suited for mixed use: high mileage and excellent traction. The rubber composition and stronger cords provide outstanding performances on and off road. The sturdy shoulder profiles withstand the high loads trailers often have to endure. These tyres are wear-resistant and resistant to punctures on aggressive surfaces.

UF 02

Trailer axle tyre

Suitable for regional and international transport

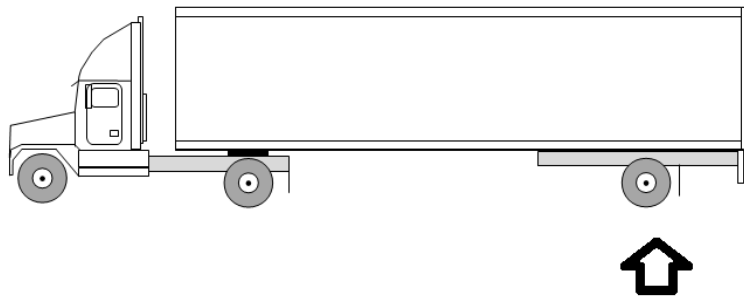

Available in sizes : 215/75R17,5 – 235/75R17,5 – 245/70R17,5

Sustainable trailer tyre with wing-shaped grooves that prevent stones from getting stuck. The wide pattern ensures equal pressure distribution, maximum grip and high resistance to irregular wear.

[Back to menu](#)

UF 18

Trailer axle tyre

Suitable for regional transport

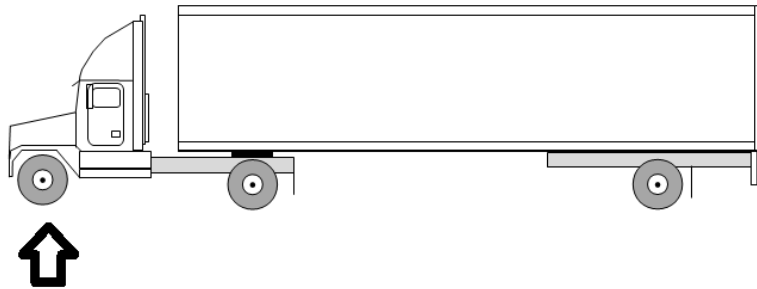

Available in sizes : 385/55R22,5 – 385/65R22,5 – 425/65R22,5

Trailer tyre for regional transport with robust shoulders and reinforced pattern design. The zigzag pattern protects the grooves while the reinforced belt guarantees an extremely long life. Excellent traction and braking performance in all weather conditions.

UF 20

Steering axle tyre

Suitable for regional transport

Available in sizes : 295/80R22,5 – 315/70R22,5 – 315/80R22,5 – 385/65R22,5

Steer axle tyre with optimized carcass which provides excellent handling and wet braking, even at the end of the tyre's life. The sophisticated rubber compound decreases the rate at which the tyre wears down. The sturdy shoulders prevent chipping and cracking.
